Routes of School Busses Announced

Schedule for Lower Merion Pupils is made public

The Narberth Board of Education has announced the routes and time of the buses which will convey the Lower Merion High School pupils from the Borough.

One bus will leave Howard's Drug Store at 8 A. M., by way of Narberth, Chestnut, Wynnewood and Montgomery Avenues, and the other will start from Narberth and Woodbine Avenues, running by way of Narberth, Haverford and Essex Avenues to the School. This car also leaves at 8.00 A. M.

At the request of the school authorities, we are again printing the information relative to the opening of the Narberth Schools, and the hours between which classes will be held. There is also included the official notice from Superintendent Downs of the Lower Merion Schools, relative to the opening of the High School.

The Narberth Public Schools will reopen on Monday, September 10th. All grades will work on a two-session schedule. For Grades I and II the sessions will be as follows: 8.40 to 11.40 A. M., 1 to 2.30 P. M. Grades III and IV: 8.40 to 11.40 A. M., 12.40 to 3.00 P. M. For Grades V to IX inclusive: 8.40 to 11.40 A. M., 12.40 to 3.20 P. M.

Pupils who are to enter school for the first time must be vaccinated prior to entrance. The vaccination certificate must be presented at time of enrollment. It is advisable that this be done at least two weeks before the opening of school.

Lower Merion Notice

The Lower Merion Schools will open for regular work Tuesday morning, September 11th. Children who will be six years of age prior to April 1, 1924, may be admitted during the month of September. No new children may be admitted to any grade of the schools until they present certificates of successful vaccination.

Those who desire to enter either the Junior or Senior High School should present their credentials to Supt. Downs. All others should report to the principals of their respective schools.

All who desire to furnish rooms or board to teachers should notify the Superintendent in writing prior to September 5th.

Coach Forstburg desires to meet all candidates for the High School football team on Lower Merion field at two o'clock Tuesday, September 4th, for preliminary practice. This includes all who were last year enrolled in the Narberth High School.

LABOR DAY SERVICE

Following the custom of past years the Protestant Churches of Narberth will hold a Labor Day service at the closing meeting of the Union Sunday Evening Services of this summer. In view of the present situation many people are wondering if the Church has no word to say or if the Prince of Peace has left men to struggle with their difficulties alone. There are those who believe God has a way to peace and prosperity for all and in the midst of the present turmoil in the working world Protestant Christianity in Narberth will speak its word in the Union Service Sunday evening under the subject, "God's Message on Labor Day, 1923."

MAJOR COLLINS TO SPEAK

September 20th is the day to be kept open, for a treat is scheduled for that time. Mr. Alfred M. Collins will present his African Experience for the benefit of the Main Line Citizens' Association at the Merion Cricket Club, Haverford, on the evening of September 20th, at 8.15. Adult tickets \$1.00. Children tickets 50 cents.

Mr. and Mrs. Thomas Deise and three daughters, of Lock Haven, spent the week with the Needham family. Mrs. Deise is Mrs. Needham's sister.

"Buy in Narberth and be Satisfied"

Narberth Gets Credit for Season Tickets.

Early last Spring, one of our prominent citizens came along leading a spell binder from the Chautauqua Association by hand. And in the short space of several hours, they succeeded in getting the signatures of some thirty of our patriotic (we were going to say "quixotic") residents on the well known dotted line of a formidable document. By so doing they made it possible for the Chautauqua to come to Narberth. And, as a sort of an aside, made themselves financially responsible to the Chautauqua Association. Here's the dope in a nut shell: the guarantors, meaning the aforementioned citizens, are allowed the proceeds of the sale of season tickets to the amount of their guarantee but they do not get credit for the gate sales. Hence, they are anxious to get out from under by selling as many of the ten trip tickets as possible. They feel that the thriving populace should put their shoulders to the wheel and put the thing across. You see, the Chautauqua is a non-profit making corporation and can not afford to "make" a town unless guaranteed expenses. That's all as clear as mud, isn't it?

Glad that's off our minds and we can talk about the show. Someone had the effrontery to say that they were afraid that the show would be over our heads! While this smacks of Merion hauteur, it was given out by a Narberth man! O tempora! O mores! Or words to that effect. Last week we were holding forth about Frank Tannenbaum and his talk on Crime and Punishment and we still think it a good thing. If a chap finds something no one lost, has Society the right to throw him into a dark dungeon and hold him in durance vile? Should a slight technical error in court procedure quash the case against a light fingered yegg? Ask Mr. Tannenbaum—he'll tell you.

The question of music comes up as it has before. There have been those who want to know exactly what we are going to have and why. However, working on the theory that anticipation is much more fun than participation, we are not going to spill all the program but merely state that one feature will be a group of talent doing their stuff through the medium of a medley of popular songs. If you think it is easy to write a skit using some of our current song hits, try it on! Throughout the circuit, this company has never failed to bring down the house or tent as the case may be.

Hon. Henry T. Rainey will give a lecture on the turn of the tide. It does not seem fitting that we should attempt to steal his thunder by telling you what tide he means and whether or not the fishing was good. We are content to rest on the remark that he is a well known lecturer and that we are more than sure that he will be an unqualified success.

Working on the well known theory anent taking dares and stealing sheep, we are deliberately daring you to buy a flock of ten trip tickets. Don't let Ted Atkins be the only bird in town to call a bluff!

NEWBORG-POWELL

Miss Emma B. Newborg, of 309 Woodbine Avenue, will be married this evening to W. Burton Powell at the home of her parents. Miss Newborg was born in Narberth. The ceremony will be performed by Rev. A. S. Demmy, pastor of the Baptist Church.

"Burt" Powell, who is a draftsman in the Engineering Department of the Pennsylvania Railroad, is well known in Narberth as a baseball and basketball enthusiast, having played on the local teams for several years.

After the ceremony the bride and groom will take a trip to Niagara Falls and Canada, later spending a week at Atlantic City.

Expect New Series to Break Record

B. & L. Association in Prosperous Condition

The present stockholders of the Narberth Building and Loan Association are being asked by the Board of Directors to recommend their Association to their friends who are not now stockholders, and postal cards have been sent to each stockholder making this suggestion, and if the idea is followed out, the new 36th Series will be a record breaker.

The usual blotters will be left at every house in Narberth and with all these reminders there will hardly be any excuse for not knowing that this new Series will be opened on Thursday evening, September 6th, from 7 until 9, at Elm Hall.

Mr. Mather, Vice President of the Breyer Building and Loan Association, explains very thoroughly the difference between purchasing a home under the single and double mortgage plans.

Two-Mortgage Plan

Sometimes properties are purchased with two mortgages, the first being what we call a straight mortgage, and the second the building and loan association mortgage. This plan does not cost as much per month as the plan with one mortgage and is worked out in the following manner:

We will say, for example, that a property costs \$5000 and the purchaser has \$1000 to pay down upon it. This would leave \$4000 to go upon the mortgage. He takes a first mortgage of \$2500 and a building and loan association second mortgage of \$1500. The amount he would pay would be as follows: The interest monthly on a \$2500 straight first mortgage at 6% would be \$12.50. The building and loan association dues and interest on the second

TENNIS NOTES

The usual weekly dinner was served at the Club last Saturday, and kept up the reputation of improving the previous one if that were possible. The menu consisted of roast spring lamb, string beans, roasted potatoes, Montgomery salad, cold slaw, ice cream with chocolate sauce and Maraschino cherries served by the Sub-Debs Misses Jessie and Peggy Ballingall, Anne, Theresa and Margaret Shea, Frances Diamond and Bessie Miesen, the whole superintended by Mrs. W. D. R. Evans and Mrs. R. O. Sharp.

Next Saturday the dinner will be in charge of Mrs. O. V. Kruse, and those who were fortunate to be at the last one put on by that lady will hurry to get in their reservations by calling Narberth 607-J.

On Labor Day there is going to be a surprise dinner, and so as to prevent overcrowding we cannot give the caterer's names nor are we allowed to give the menu. The facilities of the Club are limited, and were we to divulge this information it would probably cause a small riot. The reservations for this date will be limited to 100, so if you wish to get in on it, call the above number as soon as possible.

ANNUAL TOURNAMENT

The Annual Tournament will commence on Saturday, Sept. 1st, with matches in both Singles and Doubles. Play will continue over Labor Day when it is hoped to have the Finals played.

COUNTRY FAIR

The arrangements for the annual Country Fair are being rapidly worked out. Tickets for the CAR are now on sale, and can be obtained from any of the members. The Brass Band is in sight, and surprising novelties from all corners of the world are already arriving so that this year's FAIR will be bigger and better than ever. We can also assure you that the weather will be much WARMER. Thank you.

Narberth's Big Day in Baseball Next Monday

Popular Newton Team in P. M. Berwyn Morning.

The Borough of Narberth will migrate in a body to the baseball diamond on Rockland Avenue next Monday to see two big games.

In the morning the contest will be with the strong Berwyn aggregation. The two teams have always put up a real scrap, and Monday's will prove no exception. The game will be called at 10.15 A. M. sharp.

Berwyn doesn't quit till the last man is out, and Narberth will make it interesting for them as long as the game lasts. This is a league game, the last of the present half, and one which may decide the second half championship, depending on today's scores.

Special trains are speeding here from all parts of the United States and Canada to bring the fans in for the afternoon game. This is with the Newton Coal Company boys, who have already played two of the best games of the year on our diamond. The first time, on the 16th, Narberth broke Newton's long winning streak by beating the dusky athletes, and they came back the following Thursday to try to square things up.

The crowd at that game was the biggest on the twilight field this year, and the game was worth it. Darkness left the score a tie, and another chance was given Newton to even up the account.

And so, next Monday, it promises to be a game which for excitement and interest will surpass anything so far played. The Newton boys furnish a combination ball game and vaudeville show, and are, withal, good sports and snappy players.

It costs money to run a ball team, even an amateur one, and the managers of the Narberth team are counting on the support of the fans Monday. There will be a mighty throng there, no question about that, and it is hoped that many will not only give the regular admission charge, 25 cents, but will also pay what the game will be worth, a dollar or more, perhaps. The receipts at the last Newton game lifted a little worry from the shoulders of the baseball financiers, but more must be realized if the backers of local baseball are to come anywhere near breaking even on expenses.

Better phone to your friends in other towns to come to these games. They will be well repaid.

Another Massacre

Narberth walked all over Ardmore again last Saturday to the tune of 23-2. Every man on the Narberth team crossed the plate at least twice, and every player chalked up one or more hits. Yowell held the Ardmoreans to three singles, with seven strikeouts to his credit.

Narberth played errorless ball, fielding the elusive horsehide in the same snappy manner which has put them way up in amateur ball teams this season. By beating Ardmore, the local team takes second place in the league, trailing Bala-Cynwyd by a half

PLEASING PROGRESS

To the Editor of "Our Town":

It is certainly a real pleasure to see work at last under way on our Recreation Center.

The unsightly condition of this tract up to this time, its use for the dumping of ashes, trash, etc., was exactly like a disorderly living room in an otherwise splendidly housekept residence. And, unfortunately, many people are apt to form impressions from just such a casual survey. I know of no other way that a similar sum of money, or even a much larger amount, could be spent to more favorably advertise Narberth.

But don't let the work stop! I am informed that what has so far been accomplished has cost only eight hundred dollars. I, for one, would have guessed the cost at a very much greater sum. I congratulate Mr. A. E. Wohlert, who is doing the work, on the splendid way he has handled this undertaking. Mr. Wohlert is doing this work without charging for his own time, or taking any other profit. Mr. Wohlert tells me that he estimates that he can entirely finish the grading of this tract along the present lines for an additional Twenty-five Hundred Dollars. Considering the bids that were just received, this is a remarkably low figure, and one that would appear very much to our financial advantage to immediately grasp.

I realize there is more to be done than merely the grading. However, this is the first step in the right direction. The land will then be useable to a limited extent for its intended purpose, and the cost of proper equipment will be solved when the time comes. And don't let us forget that the present work will remove an eyesore at our front door, a condition that has caused a lot of unfavorable criticism, and in its place will give our town a six acre playground—an advantage not possessed by any other Main Line community to any extent that is comparable with ours.

I think it would be well for those of our townspeople who are glad to see this work started and want to see it continued without interruption, to express their approval promptly to the Playground Commission and urge upon them the securing at the September meeting of Council whatever authority may be necessary to guarantee the completion of the present work—and without delay.

Robert J. Nash.

TO NARBERTH'S MOST LOYAL FAN

(The Small Boy)

Little knows he of books and creeds,
Little of history's stirring deeds;
But the great American game, I'll bet
He's there forty ways and going yet.
He knows where each team is in the race,

And the batter who is setting the pace,
Where Humphries snares the elusive pill;
Where the "A's" are spending the summers still.

He knows the thrill when Fleck's at bat,
And the fielders' fear when they hear the swat
Of his mighty stick against the ball,
And the bleachers' cry of "Over the wall!"

He can tell the "Ump" where he ought to be,
And that he needs "spees" to properly see
The corners of the plate, and why
The "Phils" are last instead of high.

Why runners fear old Mickey's whip
When he mows them down with ne'er a slip.
Why Yowell and Diehn on the pitching peak
Make batters fierce look tame and meek.

That "Harvey" at the keystone sack
Is the one best bet to always back.
At the initial bag to him it's clear
Why Davis stands without a peer.

He likes the way that Dickie plays
The short field, and for endless days
The work of Jefferies brings a thrill
That can't be beat, go where you will.

To him George Fleck's a gardener great,
When he nails the runner at the plate
With an arm and eye that's true as steel;

(They say Mack mentioned to Crowell a deal,
But "Bill" won't sell at any price
Which, for managers, is good advice;
For a team that wins is a team that holds.

The best it can get within its folds.
He's with you, Narberth, and so are we,
In victory or adversity;
It's one for all and all for one;

To the class of the League we say,
"Well done."
Old Timer.

String instruments are especially desired and Mr. Vogel hopes that any amateurs who desire to sit in the orchestra should be on hand for the first rehearsal.

NATURE IS BEAUTIFUL, BUT—

Some priceless natural resources are placed in the earth only once. When used, they are gone forever. Coal, for instance, how rapidly it is being burned up. And how much of it could be saved for our children and theirs if electricity were used for more purposes. Electricity is made with coal. When you use electricity for every possible purpose, you are promoting efficiency and economy.

NATURAL SUPPOSITION

Policeman—"When you brought the would-be suicide from the water, what did he do?"

Another Tie

Darkness again left a twilight game undecided. On Thursday night of this week, Narberth met the strong Parkwood A. C. team of Philadelphia, and battled a no-decision bout of six rounds.

Narberth worked their way up from a two-run handicap in the third, aided by the excellent pitching of "Pink" Simpson, and by snappy fielding. Excepting for considerable base-stealing, the game played by both teams was well-nigh watertight. Score:

Building and Loan

(Continued from Page 1)

building and loan association mortgage of \$1500 would be \$7.50 per month dues on the shares—\$7.50 per month interest on the mortgage and 25c per share premium—\$1.88—a total of \$16.88 on the building and loan association mortgage—\$12.50 on the first mortgage or \$29.38 total per month. It will be noticed that on second mortgages the premium charged by this association is 25c a share.

The examples given above on mortgages carrying the same amount shows that by taking two mortgages the amount paid monthly is a little over \$10 per month less with two mortgages than with the one mortgage. However, with the first example the property is entirely clear when the building and loan association mortgage runs out,

whereas in the second example the property is not entirely clear when the building and loan runs out. As the building and loan association only carries \$1500 of a mortgage and at the end of the eleven or twelve-year period the building and loan association is wiped out, you still have the first mortgage of \$2500 on the property.

Many people complain that they would rather have a straight mortgage on a property because they feel that they might be in a position within three or five years to pay off some of the mortgage, and thus reduce their interest. This condition is just as true of a building and loan association mortgage as it is of a straight mortgage. As a matter of fact, the building and loan association mortgage in this particular is more convenient, because in a straight mortgage, which runs for either three or five years, the mortgage has to be renewed at the end of that time or paid off, and of course can be renewed for a smaller amount if the property owner desires to reduce it.

In the case of a building and loan association mortgage, it may be paid off at any time in any amount. In other words, if a property owner feels that he can pay off one or two hundred dollars yearly or even in a smaller period of time, he may do so and every time he pays any amount off on the principal of the mortgage, he reduces his interest just as much. Let us assume that the man with the first mortgage of \$4000 in the building and loan association finds that he is in a position to pay off \$500 per year. At the end of eight years he has paid off the mortgage, but still has the stock in the association, and when these shares of stock mature he not only has his house free but he also has \$4000 coming to him.

Warning of Expenses

Prospective property purchasers should bear in mind the fact that there are always expenses attached to the purchase of a property. These expenses are the charges of the conveyancer for writing the deed and mortgages, the charges for title insurance which must be placed on every property on which there is a mortgage and the charges for the fire insurance which must accompany the mortgage in the sum in which the mortgage calls for, and the proportionate amount of taxes and water rent for the balance of any year in which the property is purchased. Complete charges on a moderate sized property usually run around \$100 and on large properties they will run from \$100 to \$200. Many people in buying property figure that they have \$1000 which they can pay down on a house, but fail to provide for this additional expense, and are very much disappointed when they find it requires a little more money than they had thought in order to buy the property.

If you are paying rent now, consider the difference between what you would pay purchasing a property on the building and loan plan and your present rent and then decide for yourself whether it is worth while starting on our \$5.00 a week plan and saving enough money to make possible the purchase of your home.

By being a stockholder in the 36th Series of the Narberth Building and Loan Association you will begin systematic saving and these savings can eventually be used for a great many purposes, buying a lot; building a home; a fund to educate your children;

a fund to purchase securities and an emergency fund from which you can always borrow, and the interest on your payments will average over 8-1/3%.

Don't forget Thursday evening, September 6th, from 7 until 9, (Daylight Saving Time) at the Fire House in Narberth.

ANNUAL MEETING OF BUILDING AND LOAN ASSOCIATION
